

River Currents

June 18th & 19th
10 am—5pm

A hands-on workshop for teachers, educators, volunteers, and river enthusiasts!

Day 1— PA Denny River Education Center Voyage

A river excursion aboard Greater Cincinnati's first floating classroom will cover:

- Land use in the Ohio River Basin
 - Hands-on water testing
- Assessment of Ohio River fish and aquatic invertebrate populations

Day 2— NKU Algae Workshop and Monitoring Forum

- Identification of algae, including species commonly found in the Ohio River
- Algae as water quality indicators

The workshop will conclude with a panel of local experts who will focus on how monitoring techniques are used in the “real world” to study and regulate water quality.

***Professional Development credit available!
Seats are very limited!***
